

## RAINFALL IN JAMAICA.

Through the kindness of Mr. H. H. Cousins, chemist to the government of Jamaica and now in charge of the meteorological service of that island, we have received the following table:

The rainfall for November was therefore below the average for the whole island. The greatest fall, 21.73 inches, was recorded at Manchioneal, in the northeastern division, while the least, 1.28 inches, was recorded at Lucea, in the northern division.

*Comparative table of rainfall.*

[Based upon the average stations only.]

NOVEMBER, 1905.

Divisions.	Relative area.	Number of stations.	Rainfall.	
			1905.	Average.
	<i>Per cent.</i>		<i>Inches.</i>	<i>Inches.</i>
Northeastern division .....	25	23	9.55	13.38
Northern division .....	22	49	3.77	6.11
West-central division .....	26	25	7.21	5.48
Southern division .....	27	27	6.55	4.54
Means .....	100		6.77	7.38
